

Virginia Green: *Convention Center* Profile:

Hampton Roads Convention Center Hampton, VA

Virginia Green is the Commonwealth of Virginia’s campaign to promote environmentally-friendly practices in all aspects of Virginia’s tourism industry. *Virginia Green* has established “core activities” specific to each sector of tourism, and these practices are considered the required minimum for participation in the program. However, *Virginia Green* encourages its participants to reduce their environmental impacts in all aspects of their operations; and this profile provides a full list of all their “green” activities. These are the activities that guests / customers can expect to find when they visit this facility.

The Hampton Roads Convention Center’s GREEN STATEMENT

The Hampton Roads Convention Center (HRCC) is committed to searching for ways to be an Earth-friendly steward and work together with our community to improve Hampton, Virginia’s environmental profile. We progressively strive to be as “Green” as possible and we are committed to reducing our environmental impact by persistently looking for efficiencies and greener practices in our day-to-day operations. At the HRCC, we actively encourage recycling and overall waste reduction. Our water features recycle the water that is utilized; our large windows provide natural lighting; our restrooms feature motion-sensors on all toilets; and, we utilize “green” cleaners and products. The HRCC has recently eliminated all Styrofoam usage and has introduced water coolers for our attendees instead of bottled water. The HRCC is actively monitoring and conserving energy usage at our facility. Implementing and encouraging greening efforts at the Hampton Roads Convention Center has both saved the facility in operating costs and encouraged green practices with our customers, clients and the community.

Virginia Green Activities.

When visiting the Hampton Roads Convention Center, you can expect the following practices:

Provides Recycling and Waste Reduction

- Recycling – glass, steel cans, aluminum, grease, plastic, office paper, toner cartridges, newspaper, cardboard, fluorescent lamps, oil, aerosol cans and cell phones.
